Here are my drafts, which consist of nothing more than a bunch of references and an appendix that has a standard EPA method:

Here is an old IARC Monograph that previously looked at some of these compounds. Please see page 111 for an example of the type of table I need:

Here are WHO Environmental Health Criteria for some of the compounds. These also have tables of analytical methods:

<http://www.inchem.org/documents/ehc/ehc/ehc198.htm>  
<http://www.inchem.org/documents/ehc/ehc/ehc159.htm>

Here are random analytical methods:

Thanks,  
Peter
